

# <u>Customize the WalkMe Menu Using CSS</u>

# Brief Overview

You can customize every aspect of the WalkMe Menu with the CSS editor using the steps listed below.

To customize the Menu using the default options, view the <u>WalkMe Player Menu: Getting Started</u> <u>Guide</u>.

Before you get started, be sure to reference this article that introduces CSS in the menu.

### **How It Works**

1. Click Edit global CSS in the WalkMe Editor settings menu

2. Enter the custom CSS in the CSS editor

Customize Player	Balloon	SmartTip	CSS				
The Custom CSS feat	ure allows full	customization	of widget and	balloon style.	Suide	Find & Replace Short	cuts

#### Note

All the CSS provided below is for the **penguin style menu** (#walkme-menu.walkme-penguin .walkme-title).

### Customize WalkMe Menu Color

```
/* Menu */
/* Side Border aka left stripe */
div.walkme-menu.walkme-penguin.walkme-override.walkme-direction-ltr div.walkme-main,
div.walkme-menu.walkme-penguin .walkme-override.walkme-direction-ltr div.walkme-main {
border-left-color: red !important;
}
```

Type in your question	٩
Requesting a Room for an Event	
C I know WHERE	

Right Side Bar (for text menus in languages with right to left text)

```
/* Side Border aka right side*/ (If menu in Hebrew/Arabic/etc.)
div.walkme-menu.walkme-penguin.walkme-override.walkme-direction-rtl div.walkme-main,
div.walkme-menu.walkme-penguin .walkme-override.walkme-direction-rtl div.walkme-main {
    border-right-color: red !important;
}
```

"Help" Text

```
#walkme-tabs .walkme-first-tab .walkme-tab-button-text {
  color: *color* !important;
}
```

"Actions" Text

```
#walkme-main .walkme-category>.walkme-deployable-row .walkme-text .walkme-
name {
  color: *color* !important;
}
```

Menu Title Color

```
/*Changing Menu Title Color ("How can we help you?") */
#walkme-title {
color: xxxxxxx !important;
}
```

# Customize Search Bar

#### Change Search Button Static Color

/\* Search Box \*/ div.walkme-menu.walkme-penguin.walkme-override div.walkme-search-box-button, div.walkme-menu.walkme-penguin .walkme-override div.walkme-search-box-button { background: red !important; }

#### Change Search Button Hover Color

/\* Search Box Hover - choose a different color, slightly brighter or darker \*/
div.walkme-menu.walkme-penguin.walkme-override div.walkme-search-box-button:hover,
div.walkme-menu.walkme-penguin .walkme-override div.walkme-search-box-button:hover {
 background-color: red !important;
}

#### Change Search Button Clicked Color

/\* Search Box Clicked \*/ div.walkme-menu.walkme-penguin.walkme-override div.walkme-search-box-button:active, div.walkme-menu.walkme-penguin .walkme-override div.walkme-search-box-button:active { background-color: red !important;

}

#### Remove Magnifying Glass Icon

/\* Remove Search Icon \*/
#walkme-menu.walkme-penguin.walkme-california.walkme-theme-white-blue
.walkme-search-box-button .walkme-search-box-button-image{
 display: none !important;
}

### Customize Progress Bar

#### Change Color

/\* Progress Bar – This is usually a lighter color \*/ div.walkme-menu.walkme-penguin.walkme-override div.walkme-progress-bar-inner, div.walkme-menu.walkme-penguin .walkme-override div.walkme-progress-bar-inner { background-color: LightCyan !important; }

# **Customize the WalkMe Widget**

Change Mississippi Widget Color

```
/* Mississippi */
div.walkme-player.walkme-mississippi.walkme-override div.walkme-bar {
background-color: red !important;
}
```

Walk Me Through

Change Colorado Widget Square Color

/\* Colorado \*/ div.walkme-player.walkme-colorado.walkme-override div.walkme-question-mark, div.walkme-player.walkme-colorado.walkme-override \* div.walkme-question-mark { background: red !important; }

Change ? Color

/\* Widget ? Color \*/ .walkme-player.walkme-colorado.walkme-allenby .walkme-question-mark:before, .walkmeplayer.walkme-colorado.walkme-allenby \* .walkme-question-mark:before { color: white !important;}

Fill in all of Colorado Widget

/\*Full Color Colorado\*/ #walkme-player .walkme-in-wrapper.walkme-override.walkme-css-reset border-color: **#5765D1** !important; } .walkme-player.walkme-colorado.walkme-theme-black-blue .walkme-guestion-mark.walkmeoverride.walkme-css-reset { background-color: #5765D1 !important } .walkme-player.walkme-colorado.walkme-theme-black-blue .walkme-in-wrapper, .walkme-player.walkme-colorado.walkme-theme-black-blue \* .walkme-in-wrapper { background-color: **#5765D1** !important; } .walkme-player.walkme-colorado.walkme-theme-black-blue, .walkme-player.walkme-colorado.walkme-theme-black-blue \* { background-color: #5765D1 !important; } .walkme-player.walkme-colorado .walkme-title.walkme-override.walkme-css-reset, .walkme-player.walkme-colorado .walkme-title.walkme-override.walkme-css-reset \* { background-color: **#5765D1** !important; }

### ? Walk Me Through

Note

This CSS does not work if the Colorado widget is set to the Black&Blue color scheme.

Change California Background Image

```
#walkme-player.walkme-california {
background-image: url('urlHere') !important;
}
```

### Change Danube Widget Color

/\* Danube \*/
div.walkme-player.walkme-danube.walkme-override div.walkme-bar,
div.walkme-player.walkme-danube.walkme-override \* div.walkme-bar {
background: red !important;
}

#### Walk Me Through

Type In your question...

### Change Zambezi Widget Image

/\* Zambezi - new image \*/
div.walkme-player.walkme-zambezi.walkme-override.walkme-position-major-bottom.walkme-position-minor-right\_corner
{
background-image: url('insert your URL here') !important;
}

#### Before

After

Note

• The Zambezi triangle widget is an image - In order to change its color, a new image should be

designed and uploaded to replace the existing image

• Make sure the correct position class is chosen ('.walkme-position-minor-right\_corner')
