

How to Take Console Screenshots for Support

Brief Overview

Sometimes our Support team may require a screenshot of your browser console to assist you. This article will guide you on how to do that.

How to Take Screenshots

1. Press **F12** on Windows or **Option + ⌘ + C** on Mac to open your browser console
2. Make sure that you are in the **Console** tab
3. Take a screenshot of the entire browser window, including the URL

Tip: Press **Ctrl + PrtScn** on Windows or **Shift + ⌘ + 3** on Mac to take a screenshot.
