

Workstation for Mobile: Widgets

Brief Overview

The mobile Workstation app has mobile widgets! With the search widget, you can quickly access enterprise Search, notifications, and easily navigate to the app's home screen. The Quick Actions widget displays the most important resources, so you can quickly get to the information you need. Simply tap on the resource, and it will open right up. With our iOS widgets, productivity is just a tap away!

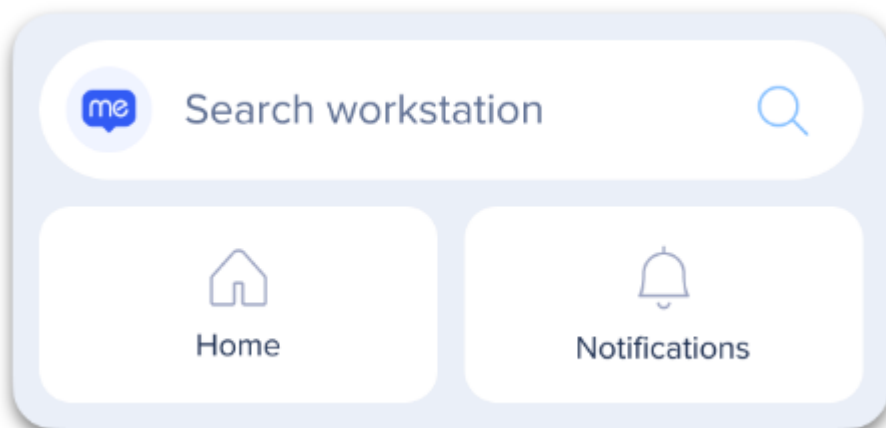

Get to Know

Search Widget

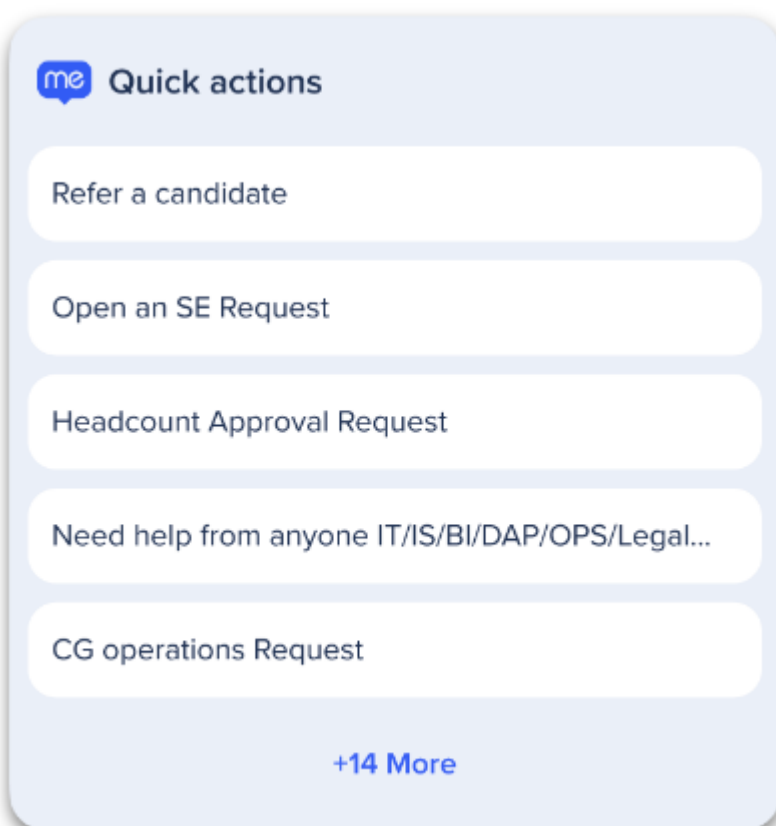

The small widget lets you quickly access Workstation's **enterprise search, home**

screen or **notifications page** with the tap of a finger.

Quick Actions Widget

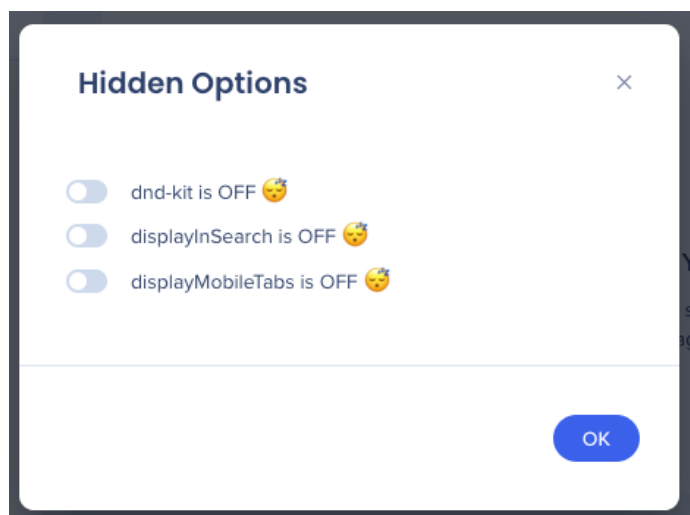

Use the large quick actions widget to have constant access your **most important resources**.

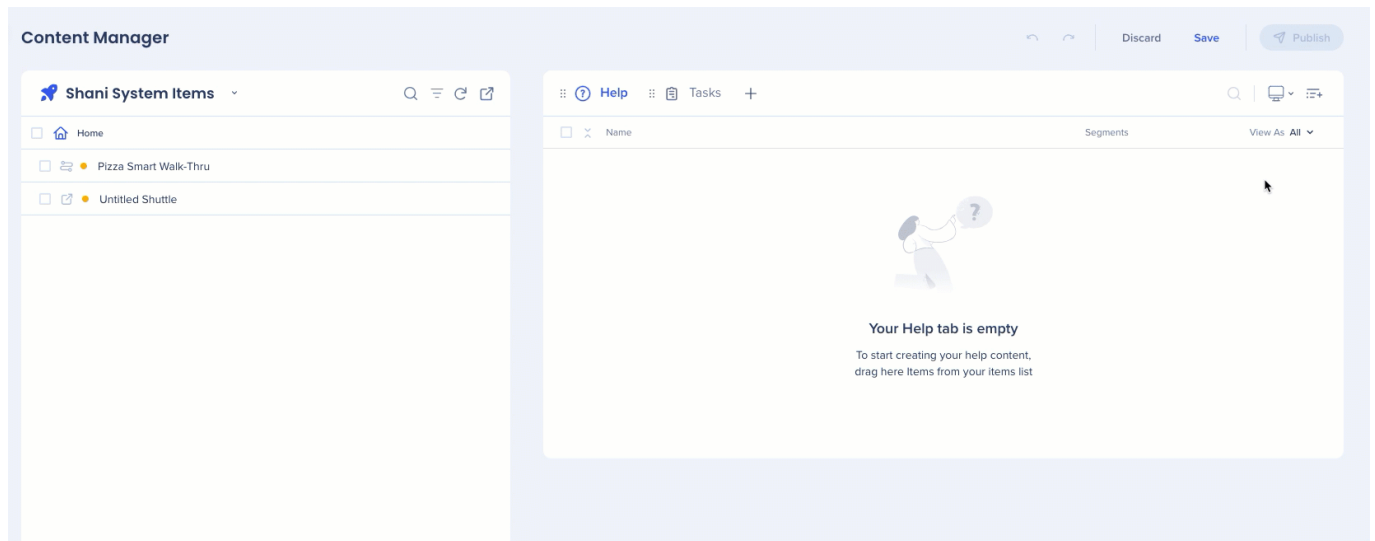

Quick actions resources are pre-defined by the Workstation Admin from the [Workstation Content Manager](#).

To access the Workstation Mobile Quick Actions tab in the Content Manager, it must be enabled from a hidden menu. Follow these steps to enable:

1. Navigate to the Content Manager in the Console
2. Press **control + shift + up arrow** on your keyboard
3. A hidden menu will open
4. Click the **displayMobileTabs** toggle to enable
5. Click **OK**
6. Click the **Desktop (Change Platform)** icon
7. Select **Mobile**

Add the Workstation widget

iOS

1. From the Home Screen of your iPhone or iPad, touch and hold a widget or an **empty area** until the apps jiggle.
2. Tap the **Add button**  in the upper-left corner.
3. Select the **Workstation widget**, choose a **widget size**, then tap **Add Widget**.
4. Tap **Done**.

Android

1. On a Home screen, touch and hold an empty space.
2. Tap Widgets .
3. Touch and hold **Workstation widget**. You'll get images of your Home screens.
4. Slide the widget to where you want it. Lift your finger.

Alternatively: Some apps come with widgets. Touch and hold the app. Then tap Widgets.

Remove the Workstation widget

iOS

1. Touch and hold the widget that you want to remove.
2. Tap **Remove Widget**.
3. Tap Remove again to confirm.

Android

1. Touch and hold the item
2. Drag the item up to Remove
3. Lift your finger

Limitations

- The Resources tab is not available in Workstation Mobile, but the closest equivalent is the Quick Actions widget
