

July 2022 Product Release

July 2022 Product Release

Data. Action. Experience.

7 new products and features you'll love!

WalkMe's July 2022 release is finally here! Get the latest and greatest on WalkMe's products and technology. Don't worry, your current implementation will not be affected by the updates until you publish again. We can't wait to show you what we're rolling out!

Watch the recording on-demand

1. Introducing Digital Transformation Intelligence (DTI)

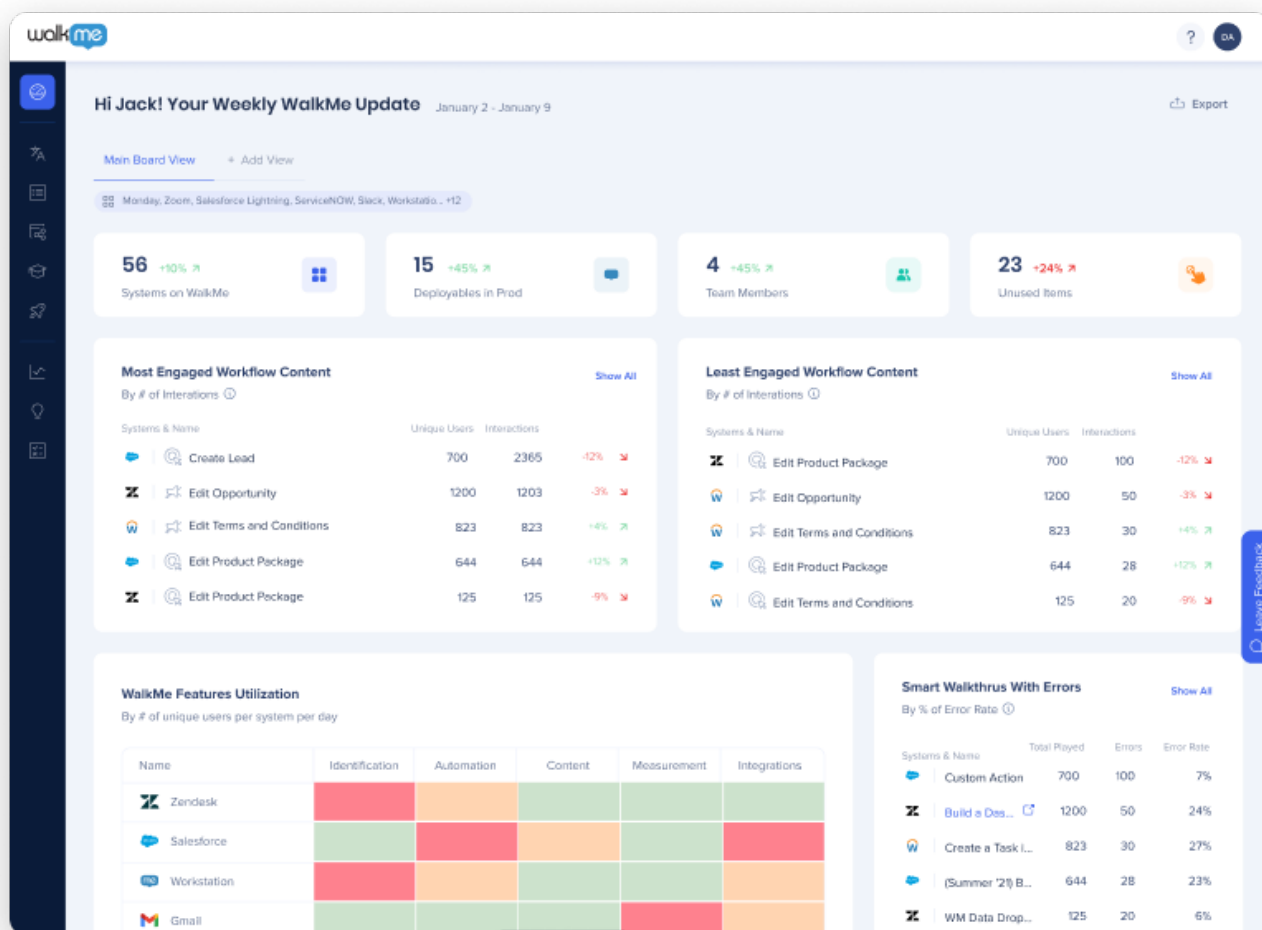

DTI is WalkMe's vision for how companies can plan, prioritize and optimize their transformation initiatives, adoption projects, and software investments. If this gets you and your team excited, we want you in the beta program!

- **Get early access to DTI:** [Apply now](#)
- **Learn more:** [DTI](#)
- **Availability:** Private Beta

2. Activity Board

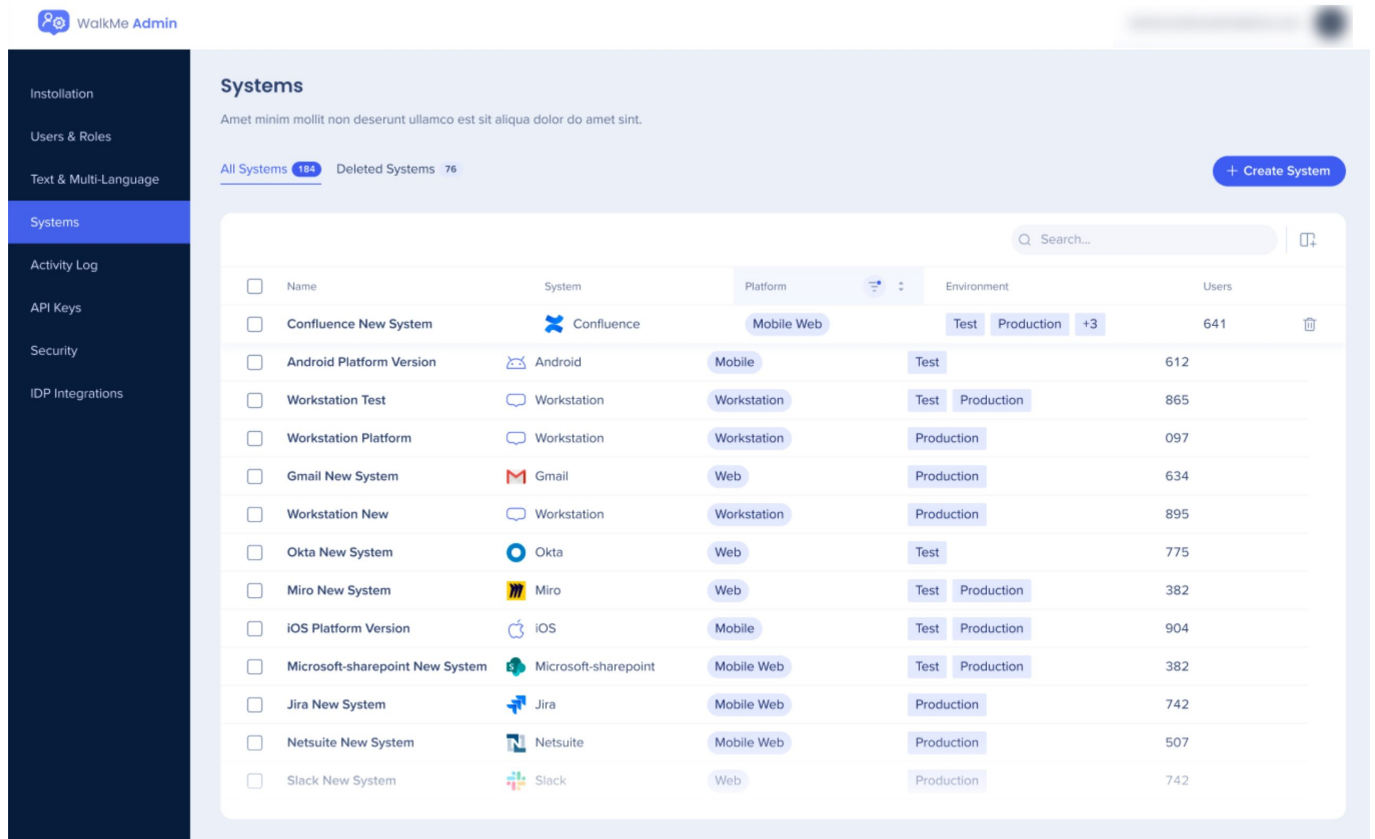

The Activity Board provides key data to understand and analyze the performance of your WalkMe content. This includes weekly “at a glance” insights that you can effectively act on in order to optimize your WalkMe content as part of your weekly workflow.

- **Get access now to key insights:** [Try it in the Console](#)
- **Learn more:** [Activity Board](#)
- **Availability:** General Availability (GA)

3. New system creation flow

Simplify the way you create and manage new systems in the Admin Center. A new unified management view will guide you in configuring systems based on your use case and requirements. This feature revamp will enable you to move faster and be self-sufficient as you scale your DAP footprint.

- **Get access now:** [Admin Center](#)
- **Learn more:** [WalkMe Systems](#)
- **Availability:** GA

4. UI Intelligence (UII)

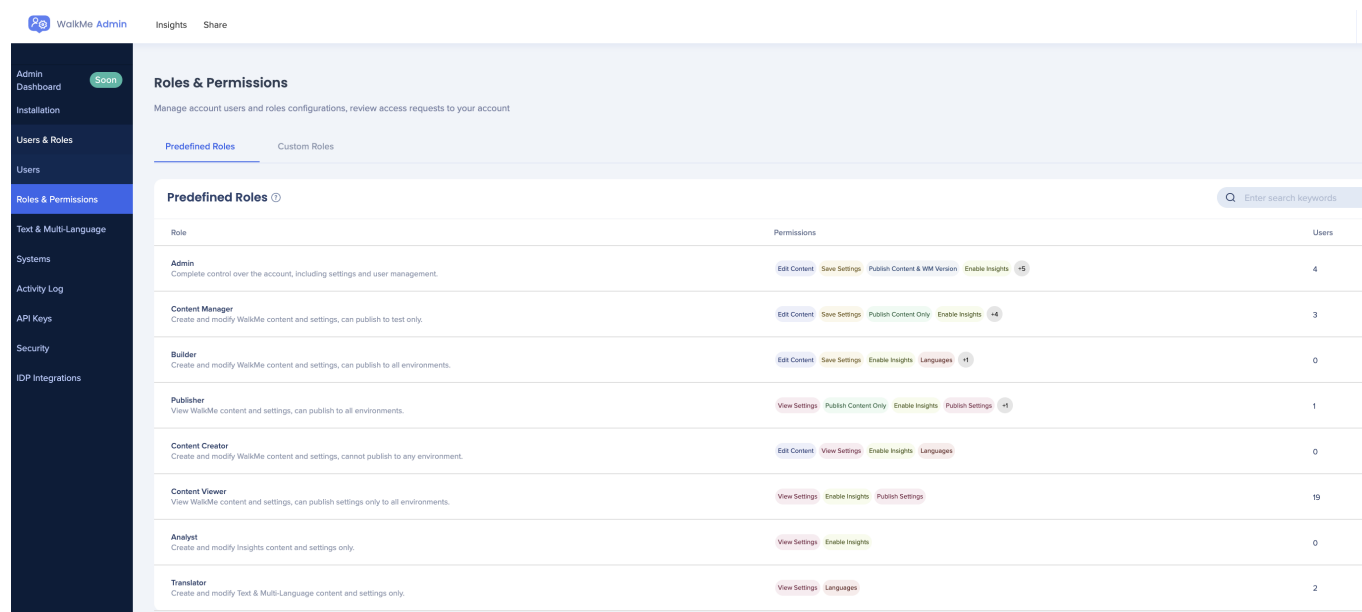

Gain actionable insights on how users engage with forms in apps. Deepen your understanding of user experiences, friction points, and challenges across common processes. We now support SuccessFactors (aka Sufa) and ServiceNow-ServicePortal, in addition to Salesforce Lightning and Microsoft Dynamics 365!

- **Start your 60-day free trial:** [Try UII now \(No credit card required\)](#)
- **Learn more:** [UII](#)
- **Availability:** GA
- **Pricing:** Contact your Customer Success Manager

5. New Roles and Permissions

The new page presents clear and intuitive user management architecture, including a new roles hierarchy that shows detailed role permissions and eliminates the need for you to use custom roles.

The screenshot shows the 'Roles & Permissions' page in the WalkMe Admin interface. The left sidebar contains navigation links: Admin Dashboard, Installation, Users & Roles, Users, Roles & Permissions (highlighted), Text & Multi-Language, Systems, Activity Log, API Keys, Security, and IDP Integrations. The main content area is titled 'Roles & Permissions' and includes a sub-header 'Manage account users and roles configurations, review access requests to your account'. Below this, there are tabs for 'Predefined Roles' and 'Custom Roles'. The 'Predefined Roles' tab is active, showing a table of roles with their descriptions, permissions, and the number of users assigned to each.

Role	Permissions	Users
Admin Complete control over the account, including settings and user management.	Edit Content Save Settings Publish Content & WM Version Enable Insights +5	4
Content Manager Create and modify WalkMe content and settings, can publish to test only.	Edit Content Save Settings Publish Content Only Enable Insights +4	3
