

ShoutOuts to Notifications Converter

Brief Overview

With the ShoutOut to Notification Converter, WalkMe Editor users can toggle a [Visual Editor ShoutOut](#) between ShoutOut and a Notification in the Engagement settings or Notification audience-engagement settings.

Enabling this feature:

If you are interested in this feature, contact your WalkMe representative to enable for your account.

Use Case

- If you have downloaded a Solutions Gallery ShoutOut Template for Workstation, but want to use this ShoutOut as a Notification.

How it Works

- Create/edit a ShoutOut or Notification, which has been created using the [Visual Editor](#).
- Enter the Visual Editor
- Click the Settings (gear icon) to launch the ShoutOut/Notifications Engagement settings.
- From the Engagement tab, click the dropdown labeled ShoutOut or Notification.
- Select ShoutOut or Notification from the dropdown list to set the ShoutOut or Notification type.
- Selecting ShoutOut or Notification will change the Engagement settings depending on the selected type
- Configure the selected type's engagement settings
- Click "Done"
