

# Workstation for SAP: Resources Widget

## Brief Overview

The SAP Resources widget on the Workstation Electron homepage allows SAP users to quickly access relevant SAP content.

## Get to Know

The SAP resources widget will automatically appear on Workstation if the following three conditions are met:

1. The user has SAP on their desktop
2. There is a tab in the Workstation [Content Manager](#) called SAP
3. There is at least one item under the SAP collection in the Content Manager

Click **Show All** at the bottom of the widget to expand the widget and see all available SAP resources.
